

**Introducing Cameo Global's Premise Solutions, featuring a Cisco Powered collaboration infrastructure, built and managed by Cameo Global to deliver world class unified communications.**

As a certified Cisco Provider, Cameo Global provides voice, video, contact center, and several other key unified communications applications to companies of all sizes, including enterprise level operations.

All of these applications can be customized to your standards using some of the most advanced technologies in the industry, all with the added benefit of total infrastructure ownership.

Cameo Global's Premise Solutions are uniquely positioned to deliver these key business applications worldwide, empowering your employees with effective tools, to enhance productivity and improve your customer satisfaction.

## Premise Collaboration Solutions

### Why Premise Communications?

With total infrastructure ownership you can tailor your hardware and software options to your specific business needs. You will also experience the benefit of top level Cisco technology. A Premise Solution enables in-depth customization and integration capabilities built to your specific requirements.

#### Premise Solutions Offer:

- **Flexibility** – *Provides wider customization capabilities, so you can create unique customer-facing processes.*
- **Control** – *Manage and oversee all hardware components to eliminate the need for a third-party service provider.*
- **Security** – *Add additional protection mechanisms for your highly sensitive data security needs.*
- **Ownership** – *Make the capital investment for complete ownership of your infrastructure.*

*By leasing or financing your system through Cameo Global Financial Services, you can diffuse your upfront infrastructure costs in a timely and economical manner. Call now to get started.*

## Premise Collaboration

Solutions Include, But are Not Limited To:

### Voice/VoIP

Enterprise Class Voice features are designed with the customer in mind and are delivered on a platform that fosters productivity and collaboration to your end-users and customers.

### Contact Center

Leverage the Premise Solution's powerful contact center platform for the full suite of contact center applications, including ACD, IVR, analytics, recording, screen capture, WFM, web-based agent desktops, email, web chat, outbound dialing, ASR/TTS, and other key customer experience applications for your customers.

### TelePresence/Video Conferencing

Cameo Global supports a broad range of next generation video communications tightly integrated through our end-to-end TelePresence platform. From small desktop video monitors to large room systems, Cameo Global will enable your video solutions.

### Unified messaging

Our enterprise voice-messaging platform allows you to access your messages from any device, at any time. Leverage your IP phone, soft client, PC, or mobile device to quickly and easily retrieve voice mails.

### Other Unified Communication Applications

Make use of instant messaging/Jabber, Auto Attendant, social media, Webex, and Speechview to enhance your business' productivity

*Cameo Global provides a full range of IT solutions, and we can deliver them anywhere in the world you do business. Our team is committed to contributing to your business' lasting success. We look forward to helping your organization grow today and into the future.*
